

**I am ... I am my mother's daughter**

I wonder about my future

I hear her sweet kind voice

I see her tired brown eyes

I am my mother's daughter

I pretend to be happy

I feel lost and alone

I tough the fire within me

I worry about life

I cry in silence

I am my mother's daughter

I understand the world around me

I say I am strong

I dream about the starts

I try to be a good role model for my siblings

I hope for a better tomorrow

I am my mother's daughter
